CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

This research was conducted to find out if there is a significant correlation between students' reading interest and their writing ability. Based on research finding of data analysis on the previous chapters, the researcher concludes that:

1. The students' reading interest at tenth grade of State Senior High School 1 Kampar is categorized into good level.
2. The students' writing ability at tenth grade of State Senior High School 1 Kampar is categorized into Sufficient level.
3. There is a significant correlation between students' reading interest and their writing ability at tenth grade of State Senior High School 1 Kampar

B. Suggestion

Seeing all the explanations and the conclusions above, the writer intends to give some suggestion related to English teaching learning as well as the future studies. Firstly, for the teachers should construct creative and enjoyable learning for students, teachers can encourage students' awareness about the importance of writing, teacher makes writing as habitual activities for students in the school, teachers should be able to guide the students in increasing their interest in reading in order to develop their ability in English, especially in writing. Considering this view, hopefully that the students as writer would write more appropriately. Secondly, the writer advises the students that the

students are also hoped to read as much as possible to increase their vocabulary in order to make a good writing, the students should be more involved in tasks that can build and increase their interest in learning English, especially interest in reading. The last suggestion is the further researchers. They are expected to conduct a research that is similar type that should be done with greater population in order to gain a wider generalization.
