CHAPTER V

CONCLUSION AND SUGGESTION

A. Research Conclusion

Based on the explanations in the chapter IV, finally the research about the comparison between using audio media and audio visual media on students' English proficiency at Senior High School 1 Kampar Regency comes to the conclusions as follows:

1. Based on the data analysis, the finding of homogeneity test is $0.960 > 0.05$. It can be said to the pretest data on the both experimental classes derived from a homogeneous variance.
2. By comparing t_0 (t-obtained) to t table from $df = 68$, it is found that the level of significance of 5% is 2.034, and the level of significance of 1% is 2.773. H_0 is rejected when t_0 (t-obtained) $>$ t table. So, because $4.155 > 2.034$, it means that null hypothesis (H_0) is rejected while the alternative hypothesis (H_a) is accepted.
3. By orienting the number of significance. If probability is >0.05 , null hypothesis (H_0) is rejected. If probability is <0.05 , alternative hypothesis (H_a) is accepted.

Based on table IV.14 the Sig. 2-tailed ($0.000 < 0.05$). values prove that there is a significant difference.

B. Suggestion

Considering the Comparison between using Audio Media and Audio Visual Media on Students' English Proficiency at Senior High School 1 Kampar Regency, the writer would like to give some suggestion as follows:

1. Suggestions for the teacher:

- a. It is recommended to teacher to increase the use of audio visual media in teaching and learning process as one of the alternative ways to improve students' English proficiency.
- b. The teacher should improve the skill in improving the use of audio visual media, like the use of laptop and projector.

2. Suggestion for the students:

- a. The students should improve their knowledge and skill in using audio visual media in listening activity.

3. Suggestions for the School:

- a. It is recommended to the school to support the use of audio visual media by facilitate projector each classes.
- b. It is recommended to the school to do specific training for teachers and staffs about the use of audiovisual media for teaching and learning process so teachers and students can get better way in their study.
