CHAPTER V

CONCLUSIONS AND RECOMMENDECTIONS

V.1. Conclusions

Based on the findings of **this research**, conclusions are drawn as in the following:

- a. There was no significant difference of students' vocabulary mastery pre-test mean scores between the experimental class 1 and the experimental class 2. In brief, the students both in the experimental class 1 and in the experimental class 2 had equal ability in vocabulary mastery before getting a treatment.
- b. There was a significant difference of students' vocabulary pre-test and post-test mean scores in **the experimental class 1**. Furthermore, the eta squared indicated 0.77 which is categorized into **a medium effect**. In conclusion, NHT technique was able to give a medium effect to the students' vocabulary mastery.
- c. There was a significant difference of students' vocabulary mastery pre-test and post-test mean scores in the experimental class 2. In addition, the eta squared displayed 0.64 which is categorized **into a medium effect**. In summary, STAD technique could give a medium effect to the students' vocabulary mastery.
- d. There was a significant difference of students' vocabulary mastery post-test mean score between an experimental class 1 by using NHT and an **experimental class 2** by using STAD.

Based on all of research findings mentioned above, it can be drawn one conclusion that NHT technique was more effective than STAD technique to the students' vocabulary mastery at SD Annamiroh 4 Pekanbaru in academic year 2016-2017. .

V.2 Research Recommendation

Based on the research findings, discussions, and the conclusions of the research results, the researcher proposes some recommendations regarding to the to use NHT and STAD techniques in teaching vocabulary, especially for descriptive text. The use of the NHT and STAD techniques are highly recommended to be applied in teaching technique in teaching vocabulary. They are effective and appropriate technique to make students actively engaged on learning new vocabulary.

To gain more attention from the students, NHT and STAD technique are good ways to make students pay longer attention. Teaching vocabulary to the students should be continuously developed to build learners capability in English in the modern era. In using NHT and STAD techniques as the techniques in teaching vocabulary mastery, the teacher should consider the variety of learners. Each of them may have different interests. So, the teacher should facilitate their capability in combining some learning aid. The teacher also has to pay attention to the time allocation provided for each meeting. For the teachers who are interested.

For those who are interested in conducting the similar research, they are advised to collect the data from more perspectives to yield a more

comprehensive results well others skills such as listening, reading, and writing.

Moreover, NHT and STAD technique can be implemented in another level of education such as senior high schools, elementary schools or junior high schools.
