

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

This research is kind of experimental research , the researcher used quasi experimental design with non equivalent control group. The problem found on this research were some of students use grammar incorrectly when speaking English , some of students had lack of vocabulary to speak ,some of the students are not able to pronounce English words well, some of students are afraid of making mistakes in speaking English, the teaching techniques do not give good contribution to teaching speaking. To solve the problem the writer used the strategy, the strategy is Four Corners Strategy.

Four Corners strategy is to provide content-rich topics in every unit, extensive opportunities to practice natural English, integrated skills, and a wide variety of engaging speaking activities. Referring to the data analysis and data presentation in chapter IV, finally the researcher concludes that the answer of the formulation of the problem:

1. Students' speaking ability of the second year at SMAN 3 Pekanbaru taught without using Four Corners Strategy is low.
2. Students' speaking ability of the second year at SMAN 3 Pekanbaru taught by using Four Corners Strategy is high.
3. The Four Corners Strategy gives significant effect to students' speaking ability at second year of SMAN 3 Pekanbaru.
