

## CHAPTER V

### CONCLUSION AND SUGGESTION

#### A. Conclusion

Based on the data presentation and data analysis explained at chapter IV, the research finally comes to the conclusion as the answer of the formulation of the problem. The conclusion is as follows:

1. The students' reading comprehension taught by using Free Voluntary Reading Strategy was better. The mean score of post-test is 74.53, it can be categorized as **Good**.
2. The students' reading comprehension taught without Free Voluntary Reading strategy was lower than using Free Voluntary Reading Strategy. The mean score of post-test is 61.73, it can be categorized as **Enough**.
3. Free Voluntary Reading Strategy gives significant effect on students' reading comprehension of the eleventh grade at MAN Kampar Timur.

In conclusion, teaching English by implementing Free Voluntary Reading Strategy of the eleventh grade at MAN Kampar Timur is successful to improve students' reading comprehension.

## **B. Suggestion**

Based on the research findings, the writer knows that using Free Voluntary Reading Strategy on reading can give significant effect for students' reading comprehension on narrative text. This strategy can improve students' reading comprehension. Therefore, Free Voluntary Strategy can be one of the choices for the English teacher to help students' reading comprehension. Furthermore, for the other researchers, Free Voluntary Strategy can be used in other schools to know the effect of teaching reading. It can also be a relevant research for the researchers that will conduct research.
