Dear DR. Teddy Purnamirza, ST, M.Eng:

You will receive an official acknowledgement for the submission of your article, after the editorial board has determined the submitted file and all information are complete.

You will not receive anything if your file is deficient.

You may send an email inquiry if you did not receive anything in one week.

Title: A DESIGN OF COMPACT RADIAL LINE SLOT ARRAY (RLSA) ANTENNAS FOR WI-FI MARKET NEEDS

Corresponding Author: DR. Teddy Purnamirza, ST, M.Eng

Uploaded file(s): paper_for_PIER.doc,paper_for_PIER.pdf

Time: 2016-08-31

From: 103.193.19.19

Key: 16083101

Please use this key for all future correspondences related to this paper.

You are strongly suggested to visit the Author Guidelines at,

Cc: jpieer@emacademy.cn

Dear Dr. Teddy Purnamirza:

Your article

Key: 16083101

Title: A DESIGN OF COMPACT RADIAL LINE SLOT ARRAY (RLSA) ANTENNAS FOR WI-FI MARKET NEEDS

may be accepted for publication when we receive your revised version. However, this is not an acceptance notice, the paper may still be rejected. A final decision of acceptance or rejection will be made after receiving and evaluating your revised version together with additional new review inputs.

Please go to

http://www.jpieer.org/pier/on_line/login.php?userid=rUWapUlbL3kQnTluoac2MJ1hsRgAlmZ2ZmWWsUcbMzqhMKR%3D,

take into account Reviewers' comments and suggestions, and fill in the checklist form in the "To Do" list.

To expedite the process, the following files are required in this revision stage:

1) The point-by-point answers to the reviewer comments in a separate file.

2) A revised version with clear revision marks.

Please kindly mark revisions in different color or indicate the page and line numbers where the revisions should be made. Revision marks will expedite the checking process by the editors or reviewers.

3) Please DO upload the source files (TEX with EPS or PDF figures, or DOC files) of the whole revised article to expedite the typeset process.

Usually, you are required to submit the revised version within 3-7 days. However, we hope you can have reasonable time to improve the manuscript better. If you need more time, we suggest you inform us in advance. Or, if we do not receive your response within 1 month, your paper may be withdrawn from our file.

Publication Fee, Page Limit and Overlength Page Charge:

As all articles in all PIER Journals are available online and free of charge to all readers, PIER authors are required to pay the publication fee (if any according to the calculation below). New format is used for PIER Journals from the beginning of 2014.

The total publication fee is the sum of the paper charge and the overlength page charge.

The paper charge is USD 200 for each paper in PIER. There is NO paper charge for PIER B, C, M and Letters. The page limit is 6 pages for PIER Letters, 10 pages for PIER, PIER C, PIER M, and 20 pages for PIER B. The overlength page charge is USD 100 for each journal page exceeding the page limit.

Authors are strongly suggested to pay attention to the page limit before submitting and revising the manuscript.

You can also log in,

http://www.jpieer.org/PIER/on_line/login.php

Lastname: Purnamirza

Reviewer 1's Comments:

The authors demonstrated the proposed antenna is practical and suitable for Wi-Fi application; however, the novelty of the antenna design is limited. The authors should provide a design guideline as well as parametric studies to enrich the content of the paper. Please also proofread the paper carefully.

Reviewer 2's Comments:

In this paper, an RLSA antenna with a compact size is presented by applying a technique, called the extreme beamsquint technique, previously developed by the authors, to an RLSA simplified from the authors previous design.

However, 1)the optimization process could be presented in more detail;

2)the author how to show this design is the optimal one;

3)what are the frequency responses of gain and beamwidth over the operating band ?

Thank you for your contribution.

With our best regards,

--

Thu,

To: work@jpieer.org

Dear **PIER Editorial and Production Board**,

Thank you for the review information,

We'd like to ask extensions for the revision for 2 weeks, the reasons is because we need to do some simulations to get the frequency responses of gain and beamwidth over the operating band :

Thank you

Dr. Teddy Purnamirza

Dear Dr. Teddy Purnamirza :

This is to kindly inform you that the typeset version of your article

Key: 16083101

Title: A DESIGN OF COMPACT RADIAL LINE SLOT ARRAY (RLSA) ANTENNAS FOR WI-FI MARKET NEEDS is available online now. Please proofread and send the revisions within 3 days. This is not an acceptance notice; the paper may still be rejected. A final decision of acceptance or rejection will be made after receiving and evaluating your revised version together with additional new review inputs.

The PDF file of your article may have been edited for English grammar. Kindly mark revisions in different color or indicate the page and line numbers where the revisions should be made. Do not upload the files of your whole revised article without indication.

Please online check if there is any new review comment, carefully reply each point questioned by the reviewer(s), and submit the answers in a separate file together with the revised version.

You can download the PDF file from our on-line author page,

Dear Dr. Teddy Purnamirza:

The Editorial Board has recommended, based on considerations of topical relevance, page budget of the journals, review inputs, time constraint for publication, etc., that your article

Key: 16083101

Title: A DESIGN OF COMPACT RADIAL LINE SLOT ARRAY (RLSA) ANTENNAS FOR WI-FI MARKET NEEDS

may be accepted for publication in
PIER L or WITHDRAW.

Please complete the journal selection and also download the PDF file to finally proof read, and fill in the checklist form in the "To Do" list within 2 days, by clicking

http://www.jpier.org/pier/on_line/login.php?userid=rUWapUIbL3kQnTluoac2MJ1hsRgAlmZ2ZmWWsUcbMzqhMKR%3D

or

http://www.jpier.org/PIER/on_line/login.php

Lastname: Purnamirza

Password: XZJ3632V

Please kindly note that any revision of reducing contents in this Final Proofread stage will not be acceptable, once you receive this final acceptance notice.

Publication Fee, Page Limit and Overlength Page Charge:

As all articles in all PIER Journals are available online and free of charge to all readers, PIER authors are required to pay the publication fee (if any according to the calculation below). New format is used for PIER Journals from the beginning of 2014.

The total publication fee is the sum of the paper charge and the overlength page charge.

The paper charge is USD 200 for each paper in PIER. There is NO paper charge for PIER B, C, M and Letters. The page limit is 6 pages for PIER Letters, 10 pages for PIER, PIER C, PIER M, and 20 pages for PIER B. The overlength page charge is USD 100 for each journal page exceeding the page limit.

To pay for the publication fee and expedite the publication process, please download the form at,

<http://www.jpier.org/PIER/JPPaperChargeForm.pdf>

or

<http://www.jpier.org/PIER/JPPaperChargeForm.docx>

This paper will not be scheduled until it is approved and the payment of publication fee is confirmed.

Once your paper is scheduled, no changes can be made to your paper. If we do not receive your response within 2 days, your paper may be withdrawn from our file.

Detail information about journal process, please visit Author Guidelines at,

<http://www.jpier.org/PIER/authors.php>

Thank you for your contribution.

With our best regards,

--

Dear Dr Rado,

Below, I forwarded the acceptance notice from **PIER Editorial and Production Board**, and I attached the acceptance article.

please proceed for payment. The publication fee is free, however we have to pay overlength page charge = 2 page x \$100 = \$200

Thank you
