Dear dr. Teddy Purnamirza,

First of all, we apologize for the lengthy review period.

Manuscript ID 20115 entitled "The Utilization of Backgrounds as Radiating Elements to Construct Multibeam Radial Line Slot Array (RLSA) Antennas" which you submitted to our Journal "International Journal on Communications Antenna and Propagation (IRECAP)" has been reviewed. The comments of the reviewer(s) are included at the bottom of this email.

The reviewer(s) have recommended a MAJOR REVISION. This is an opportunity for you to respond to their major concerns and to incorporate improvements in the paper according to their suggestions. It is also an opportunity for you to add new results. We normally only permit one major revision before an accept or reject decision is made. So please take the concerns of the reviewers seriously.

Therefore, I invite you to respond to the reviewer(s)' comments and revise your manuscript within two weeks from the date of this email.

If it is not possible for you to submit your revision in a reasonable amount of time, we may have to consider your paper as a new submission. You should revise your manuscript using a word processing program and save it on your computer. Please also highlight the changes to your manuscript within the document by using the colored text in red. Once the revised manuscript is prepared, you can upload it and submit it through your on-line submission system. In order to expedite the processing of the revised manuscript, please be as specific as possible in your response to the reviewer(s).

Once again, thank you for submitting your manuscript to our Journal and I look forward to receiving your revision.

Sincerely,
Dr. Masood Ur Rehman, Editor-in-Chief of International Journal on Communications Antenna and Propagation (IRECAP)
masood.urrehman@glasgow.ac.uk

Reviewer Responses:

After a complete review of the article, we strongly suggest the editor and author to undergo a major revision. A revised version after evaluation can be considered for publication.

Below the summary of the main remarks:

- The paper should be submitted with the photo and a brief curriculum of all the Authors.
- For a better readability of the article, before the Introduction section, a Nomenclature section, not numbered, should be added with a list, in alphabetic order, of all the used symbols/acronyms and their meaning. Any other list of symbols should be embedded in the Nomenclature section.
- The use of first plural person should be avoided.
- The conclusion is extremely weak. In the Conclusions, the authors should state the scope and the aims of this investigation, along with important research directions on this issue.
- The reference list is partially outdated. Most of the references to be from 2018-2021 are expected.
- The authors should clarify the reasons of the source of the data reported in Table I.
- The revised version of the paper should be sent in doc or docx version.

For any questions don't hesitate to contact us.

Best regards,

Dear Editorial Staff,

First of all, I thank you for the response and comment from editorial board and reviewers to our paper. Secondly, I'd like to ask an extra time to finish the review since I've got a fever during these 10 days. So, if it is possible we need an extra 2 weeks to finish the review.

Thank you for your attentions and help.

Warning for print deliveries:

In case you decide to order the print copy of the journal, we point out that the shipping will be made with the "regular mail" service, without the possibility to monitor the delivery. In this case the delivery time will take around two months. Otherwise, you can decide to receive it with a "registered mail" service, that will have a cost around 35.00 euros (for one print copy) instead of about 25.00 euros requested for the regular mail. In case of "registered mail" service, the delivery can be monitored and the time delivery is within 30 working days.

Summary for one print copy:

Shipping mode	Cost	Delivery time	Delivery monitoring
Regular mail	25.00 euros	30 working days	No
Registered mail	35.00 euros	30 working days	Yes

Please note that if you will not receive the copy, it will not be possible to send it to you again for free. Anyway, in the case of lost delivery, we will send you the proof of the shipping and the password to download the electronic version of the issue where your paper has been published.

N.B. Please verify that all the metadata indicated in the webpage of your submission (in the Summary section) are updated respect to the final version of the paper you've uploaded.
