

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

This research consists of two variables. They are the effect of using Serial Story Strategy (independent variable) and the students' listening comprehension (dependent variable). Based on the data analysis in chapter IV, finally the research about the Effect of Using Serial Story Strategy toward students' listening comprehension at Darul Hikmah Islamic Senior High School Pekanbaru comes to the conclusion as follows:

1. The students' listening comprehension in narrative text before being taught by using Serial Story Strategy was categorized into less category.
2. The students' listening comprehension in narrative text after being taught by using Serial Story Strategy was categorized into very good category.
3. There was significant effect before and after being taught by using Serial Story Strategy on students' listening comprehension in narrative text at Darul Hikmah Islamic Senior High School Pekanbaru.

B. Suggestion

After conducting the research, the writer would like to give some suggestions to the teacher and the other researcher:

1. Suggestion for Teachers

- a. Serial story Strategy can be one of the choices for the English teacher to help students' listening comprehension on narrative text
- b. In effort to improve the students' listening comprehension, teacher must be creative to manage the strategy used in comprehending the listening text. Based on the research findings, there was an effect of using Serial Story Strategy on students' listening comprehension at Darul Hikmah Islamic Senior High School Pekanbaru. Thus, the teacher can apply this strategy in teaching listening comprehension.
- c. To build up creative and enjoyable learning for students in order to make students interested in doing their listening tasks should be developed by English teacher, for example, by using serial story strategy

2. Suggestion for other Researcher

- a. The next researcher can give contribution in conducting the research especially about listening comprehension.
- b. This research is one of the ways in improving students' reading comprehension. It is expected that the findings can be used as starting point to conduct another research.
- c. There are many other strategies to make teaching and learning process more effective. The researchers are expected to find new strategies, methods, techniques, and approaches.

Finally, the writer considers that this study still needs validation from the next writers that have the same topic as the study. It means that Serial Story Strategy can be used at other schools to know the effect of teaching listening. It can also a relevant research for the writers that will conduct.
