

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Based on the data analysis and research finding in chapter IV, it is about the effect of using Text Mapping strategy towards students' reading comprehension in narrative text of the second year at MA Darul Ulum Tandun comes to the conclusion as follows:

1. Students' reading comprehension of narrative text before being taught by using Text Mapping strategy is categorized into less level, it can be seen the mean of score pretest students was 52.50 .
2. Students' reading comprehension in narrative text after being taught by using Text Mapping strategy is categorized into good level. it can be seen the mean of score posttest students was 69.46.
3. Based on the analysis of t-test formula, it was found that t_o was higher than t_{table} 5% and 1%. In other words, we can read $(2.05 < 9.488 > 2.77)$.

So, it can be concluded that Text Mapping strategy has a positive effect on students' reading comprehension of the second year at MA Darul Ulum Tandun.

B. Suggestion

Based on the research findings, the writer would like to give some suggestion especially for the English teacher and the students.

1. For the teacher

- a. The teachers are hoped to provide a variety of suitable and interesting strategies in teaching reading. A good strategy will also influence and improve the students' comprehension and interest in teaching process.
- b. Since the implementation of the text mapping has proved that there is good significant effect in students' reading comprehension, hopefully teacher of English subject can use text mapping in teaching-learning process.

2. For the students

- a. The students study how to use of Text Mapping Strategy in reading narrative text.
- b. The students pay careful attention to the lesson being explained by the teacher.
- c. The students must have self confidence.
