

We have reached a decision regarding your submission to International Journal of Engineering and Advanced Technology (IJEAT), "MANAGEMENT OF POTENTIAL DATA ON WEBSITES FOR COMMUNICATING RESEARCH IN EDUCATION ISSUE".

Our decision is: Revisions Required

-----  
Reviewer A:

**Abstract :** Prepare your abstract in single paragraph and within 200 words (and min 150 words in length). You need to summarize your contribution, idea, findings/results, and describe implications of the findings. Without abbreviations, footnotes, or references. Without mathematical equations, diagram or tabular material. It is suggested to present your abstract included the elements: 1) state the primary objective of the paper; 2) highlight the merits (or contribution; 3) give a conceptual idea on the method; 4) describe the research design and procedures/processes employed (is it simulation, experimental, survey etc.); 5) give the main outcomes or results, and the conclusions that might be drawn; and 6) include any implications for further research or application/practice, if any

**Introduction section :** explain the context of the study and state the precise objective An Introduction should contain the following three parts: - Background: Authors have to make clear what the context is. Ideally, authors should give an idea of the state-of-the art of the field the report is about. - The Problem: If there was no problem, there would be no reason for writing a manuscript, and definitely no reason for reading it. So, please tell readers why they should proceed reading. Experience shows that for this part a few lines are often sufficient. - The Proposed Solution: Now and only now! - authors may outline the contribution of the manuscript. Here authors have to make sure readers point out what are the novel aspects of authors work. Authors should place the paper in proper context by citing relevant papers. At least, 8 references (recently journal articles) are cited to support this section

**Results and Discussion :** The presentation of results should be simple and straightforward in style. This section reports the most important findings, including results analyses as appropriate and comparisons to other research results. This section should be supported suitable references.

**Conclusion :** Your conclusion should make your readers glad they read your paper. Summarize sentences the primary outcomes of the study in a paragraph (NOT in numbering).

**References :** Minimum 25 references primarily with a minimum of 60% to journal papers SCOPUS Q3. mandatory use of reference applications such as mendeley or similar applications. References must be cited in paragraphs. should not only be included without citation in the paragraph.

Recommendation: Revisions Required

Reviewer B:

The title has Novelty, a maximum of 12 words and avoid writing the place and research location in the title

Add an explanation of what information can be obtained from the displayed image

The conclusion is in the form of a brief description of the findings / research questions and not rewriting the data on the results and discussion with a solution sentence. Maximum 150 words

Avoid using numbers in the abstract, just describe the meaning of the numbers

Add 2 or 3 background sentences before the goal. Overall the maximum word count is 150

Check and include reference details used. Mendeley citation source details should be corrected according to APA style

For example, when writing titles, you should use Capital Each Word and so on

Add background on the importance of this research before writing the research objectives

In this section only write down the results and there is no discussion, please write down the discussion by juxtaposing and juxtaposing the findings of this study with previous research

Recommendation: Revisions Required

**LETTER OF ACCEPTANCE (LOA)**

**No. 087/X/IJEAT/2019**

Dear Author/s,

Based on the results of the reviewer's evaluation of the submitted manuscript, we have decided that your manuscript has been received and will be published on International Journal of Engineering and Advanced Technology (IJEAT) volume 9 issue 01 October 2019. The details of the article are as follows :

**Author : Khairil Anwar, Asmal May, Afrizal M, Andi Murniati, Rado Yendra, Ahmad Fudholi**  
**Article Title : Management Of Potential Data On Websites For Communicating Research In Education Issue**  
**Affiliation : Universitas Islam Negeri Sultan Syarif Kasim Riau, Indonesia**

If further information required, please do not hesitate to contact our journal editor.  
Thank you for your consideration.

Pekanbaru, 05 October 2019

**Dr. Mosaath Alshaikh**  
Editor in Chief
