

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Based on analyzing the data explained at the chapter IV, finally, the research about the effect of using Survey Question Predict Read Respond Summarize strategy toward reading comprehension of the second year students of SMA Muhammadiyah Rambah, the researcher can conclude that the answer of the formulation of the problem:

- a. There is no significant difference of students' reading comprehension on narrative text before being taught by using Survey Question Predict Read Respond Summarize Strategy for experimental class and Without using Survey Question Predict Read Respond Summarize Strategy for control class at the Second Year Students at SMA Muhammadiyah Rambah.
- b. There is a significant difference of students' reading comprehension on narrative text after being taught by using Survey Question Predict Read Respond Summarize Strategy for experimental class and Without using Survey Question Predict Read Respond Summarize Strategy for control class at the Second Year Students at SMA Muhammadiyah Rambah.
- c. There is a significant effect of using Survey Question Predict Read Respond Summarize Strategy toward reading comprehension in analytical exposition text of the Second Year Students at SMA Muhammadiyah Rambah.

Question Predict Read Respond Summarize Strategy contributed 82% for students' reading comprehension on analytical exposition text.

B. Suggestion

Based on the result of using Survey Question Predict Read Respond Summarize Strategy towards Reading Comprehension in analytical exposition text of the second year students of SMA Muhammadiyah

Rambah, the writer has some suggestions for the teacher, school and other researchers.

1. Suggestions for the teacher
 - a. It is excessively suggested and recommended to implement Survey Question Predict Read Respond Summarize to mediate students to comprehend analytical exposition text based on the proof of this research finding.
 - b. The teacher should actively try to lead students to predict the upcoming information before reading analytical exposition text. Survey Question Predict Read Respond Summarize strategy implemented by teacher facilitates the students to predict what probably the upcoming information will be. Prediction is considered as one of the effective reading comprehension strategies which applied by the reader. In the case of Survey Question Predict Read Respond Summarize strategy, students' prediction is guided and lead by the teacher.

- c. The tight interaction between teacher and students in learning situation will yield a positive effect in reaching learning objectives and goals. Teacher, somehow, should create this situation well. Teacher had better to find a teaching strategy that creates the tight interaction between teacher and learner.
2. Suggestion for the students
 - a. Survey Question Predict Read Respond Summarize strategy needs more participants from the students if the teacher implements this strategy. Students should actively propose their prediction and prove when teacher uses this strategy.
 - b. Students are also a reader who has a purpose of comprehension towards their reading activity in their classroom lesson. The ability to predict the probable upcoming information shows reader ability active their background knowledge. Activating background knowledge before reading throughout text will facilitate the students as the reader to comprehend and understand well.
 - c. Keep question in mind while the reader reads the text. Questioning toward the text will crack our curiosity toward ambiguous from the text after completing reading the whole text. Students as the reader should apply this strategy to get complete meaning from the text.

3. Suggestions for the next researcher

This research is one of the ways in improving students' reading comprehension. It's expected that the findings will be used as starting points to conduct another research. Next researcher should give contribution in conducting the research especially about reading comprehension. Thus, to broaden the researcher knowledge about the using of Survey Question Predict Read Respond Summarize strategy, next researcher can apply this strategy in teaching reading comprehension.
