Inggih Permana:

We have reached a decision regarding your submission to TELKOMNIKA (Telecommunication Computing Electronics and Control), "Live Bodyweight Prediction Model for Livestock Using Backpropagation Algorithm".

Our decision is to: Revisions required

In preparing your revised paper, you should pay attention to:

1. An Introduction should contain the following three parts:

- Background: Authors have to make clear what the context is. Ideally, authors should give an idea of the state-of-the art of the field the report is about.
- The Problem: If there was no problem, there would be no reason for writing a manuscript, and definitely no reason for reading it. So, please tell readers why they should proceed reading. Experience shows that for this part a few lines are often sufficient.
- The Proposed Solution: Now and only now! - authors may outline the contribution of the manuscript. Here authors have to make sure readers point out what are the novel aspects of authors work.

Authors should place the paper in proper context by citing relevant papers. At least, 5 references (recently journal articles) are used in this section.

2. Results and discussion section: The presentation of results should be simple and straightforward in style. You should improve your analyzing and also present the comparison between performance of your approach and other researches. Results given in figures should not be repeated in tables. This section report the most important findings, including results of analyses as appropriate. It is very important to prove that your manuscript has a significant value and not trivial.

3. Prepare your figures in high quality and created by yourself (not copy and paste from other parties). All legends, captions ... in your figures MUST in English.

4. Please ensure that: all references have been cited in your text; Each citation should be written in the order of appearance in the text; The references must be presented in numbering. The references must be integrated also with not less than two papers published on 2014-2016 of:

- IAES Journals at <http://iaescore.com/journals>
- TELKOMNIKA at <http://journal.uad.ac.id/index.php/TELKOMNIKA>
- Indonesian Journals at <http://journal.portalgaruda.org/index.php/eei>
- IAES Section Journals at <http://section.iaesonline.com/index.php/ijeei>

Please prepare your revised paper perfectly consider the guide. Please get take a look at: <http://goo.gl/FiPFbF>

You should submit your revised paper through our online system within 8

weeks. Then, your revised paper will be judged for final decision of acceptance or rejection.

Thank you
