Please ensure that all references have been cited in your text. Each citation should be written in the order of appearance in the text in square brackets. For example, the first citation [1], the second citation [2], and the third and fourth citations [3,4]. When citing multiple sources at once, the preferred method is to list each number separately, in its own brackets, using a comma or dash between numbers, as such: [1], [3], [5] or [4-8]. It is not necessary to mention an author's name, pages used, or date of publication in the in-text citation. Instead, refer to the source with a number in a square bracket, e.g. [9], that will then correspond to the full citation in your reference list. Examples of in-text citations:

This theory was first put forward in 1970 [9]."

Bloom [10] has argued that...

Several recent studies [7], [9], [11-15] have suggested that....

...end of the line for my research [16].....

In order to cover part of the publication cost, each accepted paper is charged: USD 225 (~IDR 3450K). This charge is for the first 8 pages, and if
