Dear Dr Awitdrus Awitdrus:

Your manuscript entitled "Biomass conversion into an inexpensive and eco-friendly activated carbon as a source of Environmental Effects, has been reviewed. The reviewer comments are included at the bottom of this letter.

The reviewer(s) would like to see some revisions made to your manuscript before publication. Therefore

When you revise your manuscript please highlight the changes you make in the manuscript by using the

In accordance with our format-free submission policy, an editable version of the article must be supplied

When you submit your revision, please also provide your response to the reviewer comments as a separate

To submit a revision, go to <https://rp.tandfonline.com/submission/flow?submissionId=210853284&step=1>

If you have any questions or technical issues, please contact the journal's editorial office at ueso-peerreview@journals.tandf.co.uk

Because we are trying to facilitate timely publication of manuscripts submitted to Energy Sources, Part A: Recovery, Utilization, and Environmental Effects, please contact peerreview@journals.tandf.co.uk if you are in need of an extension.

Changing the author list for a revision is rare and requires two criteria be met. First, every author being a paper in detail and elaborate on specific areas of the research they contributed to. This definition is given to provide an explanation of why the changes are necessary. If you need to change your paper's author list, please email the editorial office.

Once again, thank you for submitting your manuscript to Energy Sources, Part A: Recovery, Utilization, and Environmental Effects.

Sincerely,
Professor Nižetić

Dear Dr Awitdrus Awitdrus:

Your manuscript entitled "Biomass conversion into activated carbon as a sustainable energy material for the development of supercapacitor devices" which you submitted to Energy Sources, Part A: Recovery, Utilization, and Environmental Effects, has been reviewed. The reviewer comments are included at the bottom of this letter.

The reviews are in general favorable and suggest that, subject to minor revisions, your paper could be suitable for publication. Please consider these suggestions, and I look forward to receiving your revision.

When you revise your manuscript please highlight the changes you make in the manuscript by using the track changes mode in MS Word or by using bold or colored text.

In accordance with our format-free submission policy, an editable version of the article must be supplied at the revision stage. Please submit your revised manuscript files in an editable file format.

When you submit your revision, please also provide your response to the reviewer comments as a separate "Supplementary Material - for review" source file.

To submit a revision, go to <https://rp.tandfonline.com/submission/flow?submissionId=210853284.R1&step=1>. If you decide to revise the work, please submit a list of changes or a rebuttal against each point which is being raised when you submit the revised manuscript.

If you have any questions or technical issues, please contact the journal's editorial office at ueso-peerreview@journals.tandf.co.uk.

Because we are trying to facilitate timely publication of manuscripts submitted to Energy Sources, Part A: Recovery, Utilization, and Environmental Effects, your revised manuscript should be uploaded as soon by 14-Jun-2022. Please contact our editorial office at ueso-peerreview@journals.tandf.co.uk if you are in need of an extension.

Changing the author list for a revision is rare and requires two criteria be met. First, every author being added or

removed must provide their agreement for the change. Second, each author who is being added must also explain why they meet the definition of authorship for this paper in detail and elaborate on specific areas of the research they contributed to. This definition is given at <https://authorservices.taylorandfrancis.com/defining-authorship/>. Any requested changes in the order of the author list also require the agreement of all authors and an explanation of why the changes are necessary. If you need to change your paper's author list, please email all necessary agreements and explanations to the handling editor.

Once again, thank you for submitting your manuscript to Energy Sources, Part A: Recovery, Utilization, and Environmental Effects and I look forward to receiving your revision.

Sincerely,
Professor Nižetić
University of Split Faculty of Electrical Engineering Mechanical Engineering and Naval Architecture
Editor-in-Chief, Energy Sources, Part A: Recovery, Utilization, and Environmental Effects
snizetic@fesb.hr

Comments from the Editor:

Editor remarks:

- 1) Present similarity index (26%, iThenticate) must be reduced to not more than 20% with not more than 3% from a source,
- 2) Please don't use lumpy reference (such as: Gou, Li, Zhong, et al. 2019; Gou, Li, Zhang, et al. 2019). Each reference needs to be properly addressed. Please revise your paper accordingly since same issue occurs on several spots in the paper.

Taylor & Francis author update: access to your article published in an issue of Energy Sources, Part A: Recovery, Utilization, and Environmental Effects

The online platform for Taylor & Francis Group content

[Author Services](#) | [FAQ](#) | [Twitter](#) | [Facebook](#) | [LinkedIn](#)

Dear author,

Your article, [Biomass conversion into activated carbon as a sustainable energy material for the development of supercapacitor devices](#), published in Energy Sources, Part A: Recovery, Utilization, and Environmental Effects, [Volume 44 Issue 2](#), is now available for you to access via [tandfonline.com](#).

You will have permanent, free access to the final published version of your article via your **Authored Works**, our dedicated center for all Taylor & Francis authors. This is where you can view all articles published in our journals, check how many people have viewed them, see their citations, and check your Altmetric data. Haven't registered for your Authored Works yet? [Find out how](#).

Have you used your free eprints yet?

Now you're published, you'll hopefully want to share your article with friends or colleagues. Every author at Taylor & Francis (including all co-authors) gets 50 free online copies of their article to share with their networks. Your eprint link is now ready to use and is:

<https://www.tandfonline.com/eprint/HBXAFQQ8D3HYAK2EFD5N/full?target=10.1080/15567036.2022.2064941>

You can share this any way you want, and author feedback tells us this is a highly effective way of highlighting your research. Using this link also means we can track your article's downloads and citations, so you can measure its impact. Find out more about [sharing your work](#), and how you can work with us to [highlight your article](#).

If you have any problems accessing your Taylor & Francis Online account, or using your eprints, please [contact us](#).

Kind regards,

Stewart Gardiner
Global Production Director, Journals
Taylor & Francis Group
