Tengku Nurainun:

We have reached a decision regarding your submission to Journal of Applied Engineering and Technological Science (JAETS), "AN EXPLORATORY-DESCRIPTIVE REVIEW OF THE POTENTIAL FOR HALAL MANAGEMENT IMPLEMENTATION IN INDONESIAN LEATHER BUSINESSES".

Our decision is: Revisions Required

Reviewer A:

Title- Abstract- Summary : The abstract provides a clear summary of the study's objectives, methods, and findings.

Introduction and Literature Review : The introduction and literature review flow logically and coherently.

Research Methods : The methods section is detailed and clearly explains the study design and procedures.

Research Findings : For each tables which discussing about the research findings, please make a row lines to differentiate each categories.

Discussion : There are several issues involved in implementing halal management in Indonesian leather businesses. It is advisable to list down these issues and suggest solutions before formulating an action plan.

Conclusion and Suggestions : The conclusion provides a helpful wrap-up of the study's findings.

References and Citation : The references and citation are well-executed and contribute to the paper's credibility.

Language : The language could benefit from more varied sentence structure.

Other issues : This paper provides a valuable contribution to the discussion of halal management and its potential impact on national policy. Overall, this paper offers an important perspective on the role of halal management in shaping national policy and provides a valuable foundation for future research in this area.

Recommendation: Revisions Required

Reviewer B:

Title : This research is related to industrial engineering but the title does not show the industrial engineering, instead the title is more tends to business management. Modify the title so that the industrial engineering are more visible and it can fits with the scope of the jaets journal.

Abstract should contain: - Existing problems and the purpose of the study - The type and research approach used - Research subject - Conclusions, and research implications Abstract in range of 150-180 words

This introduction is not well organized. The author can convey in advance the outline of the topic to be discussed (at the beginning). Then convey the problems found, gap analysis, and urgency (in more detail). Then the author can convey the research objectives and the uniqueness or novelty of the research

This discussion need to elaborated. Describe how this research relates to previous research, examine in more depth whether there are similarities or differences. Describe the study in detail. Then, make generalizations of the discussion, novelty, and concepts from the studies that have been carried out.

Recommendation: Revisions Required
