The English club exist 2015 but it's vacuum on the activities 1-2 years because the covid-19, Kasim Riau

and active again, because sometimes there a competition that requires representative the school. Therefore, the english club usually had meeting Sonce a week and sharing and contribution are something beneficial in ducation in need. The role of gathering in preparatory school is accompanied by supervisor and coach to check if the language classes are taking the course

Eglish club at SMA Negeri 8 Pekanbaru has two different meetings in the first is the regular meeting which occurs once a week on a regular schedule. The second meeting, is when competition day will be held, the members of english club will be a more active because they have to represent the school at the competition event and the school will give more time to members who have been chosen to represent the school during class hours.

There were many benefits that students will get from joining the english club. At first all, many students are required to follow this extracurricular, by Goining english club the students have good abilities in english, also often win some English competitions conducted by the school and others. As mentioned by Malu and Smedley (2016) stated that the primary goals of english club are communicating and practicing english, english club may incorporate reading, writing, listening, speaking and critical thinking. The ften involve pupil's participations in external competition, making the dearning experience both fun, dynamic and authentic. It also supported by Ewens (2014) there are four principles in successful english club there were, english club should be participant centered, english club plays important role, empowers individual and the last is english club should be fun and enjoyment, which will be the researcher benchmark for completing this thesis.

The English Club should to be able to help students who want to learn more about English, more freely to learn all the things that in class they don't have the facilities to focus on learning, perhaps because the teacher teaches too quickly. Therefore, the school facilitates students to be able to learn more focused about English in the extracurricular that has been created.

After observation had done as long as the researcher in the classroom during the english learning, the researcher found symptoms of some students still unactive, syh and having lack interaction and some students having good Interaction, active with their teacher during learning. Then, after learning is ever, the researcher asked one of the active students during the learning, the stiudent stated that they were one of the english club members at SMA Negeri S Pekanbaru. It supported that students who participate in extracurricular activities experience higher levels of academic achievement. In other hand Fredrick (2011) stated that, students who participate frequently in extracurricular activities tend to have higher grades, better test scores, and more positive educational experiences in general. Furthermore, students with Sack interaction, motivation in the classroom, either because they are introvert, arif Kasim Riau Hak Cipta Dilindungi Undang-Undang

Shy or they have low language level, the english club might be a good solution to involve them with their friend in doing various activities and to make weak student active.

However, based on the preliminary study, the researcher found there were some English club members not achieve their goal because there is not regular schedule yet, some members of English club still have difficulties to communicating and practicing English even though they are members of English club doesn't mean all the members succeed in applying English itself, The researcher still found some gap that English club at SMA Negeri 8 Pekanbaru has some to implement then the researcher decided that the Implementation of English club as an extracurricular activity at SMA Negeri 8 Pekanbaru need serious to discuss remind that nowadays, English has important role and can be found in everywhere, in articles, television, movies, music, class, and other situations. And here the researcher will examine further, how the implementation of English club at SMA Negeri 8Pekanbaru as an extracurricular activity.

Fear of mistake is linked to the issue of correction and negative evaluation. In addition, this is also much influenced by the learners' fear of being laughed at by other learners or being criticized by the teacher.

Learners fears of Critics

Cause of the learners' fear of criticism is they worried if they make a mistake in speaking English. They think the teacher will angry when they make a mistake so the best choosing form their mind is still quite in

their classroom to avoid the criticism of their teacher. It will be negative effect in teaching and learning process because the speaking activities in the classroom will be silent and not effective.

Shyness

Shyness is emotional thing that usually appear when learners are forced for doing something that ordered by their teacher especially in classroom speaking activities Shyness appear from each individualthat caused by feeling a fear. Al Nakhalah, (2016). Some shyness of learners is caused by their nature that they are very quiet. In this case, the learners are not very confident and tend to be shy because most of them find it very intimidating when speaking English in front of their friends and teacher.

b. Nothing to say

Learners cannot think anything to say because they have motive to express something when they speak in front of class or when talking with other learners, the learners also do not have ideas for explaining what they want to say. The learners have nothing to express maybe because the teacher had chosen a topic which is not suitable for them or they know very little, that is difficult for many learners to respond when the teacher asked them to say something in a foreign language because they might have little ideas about what to say, which vocabulary to use, or how to use the grammar correctly

c. Low participant

d. Mother Tongue

There is some reason why learners use mother tongue in the classroom or when the teaching learning process. The first, when the learners get information about the lesson they not supplied linguistic ability for discussing in English language. In other reason is has note endorsement from instructor (teacher) for pressing in order learners always use language target or English language in the classroom. When there are some learner uses mother tongue in the class and then 20 the teacher responds with first language then learners will feel happy use it.

In other hand, Ewens (2014) stated that English club is what they do all have in common. English Club as an Extracurricular Activity

Extracurricular or extracurricular activities are additional activities carried out outside of school hours that are carried out either at school oroutside of school with the aim of gaining additional knowledge, skills and insights and helping to shape the character of students according to their respective interest and talents. Extracurricular is any activity that doesn't count towards an academic credit. It also argued by Lunneburg (2010) this activity does not affect students' academic scores.

Furthermore, Yildiz (2015) extracurricular activities are to be done in class or out of college based on the demands and convenience of extracurricular activities. Extracurricular as a forum for developing student potential can have a positive impact on strengthening character education. Students sometimes cannot find opportunity to be open with teacher at school so they can improve themselves for real situation with their interest in extracurricular. Extracurricular activities are unique program. According to Simoncini and Caltabino (2012) stated that, ECA are unique from unorganized and unsupervised public activities such as interacting or enjoying activities with friends. Instead, they are structured structurally and contain supervision by teacher and under

careful supervision, ECA could focus on group, interaction, management, and other public skill- building and beneficial growth for the members.

Extracurricular has a supervisor on their group. The supervision of ECA enforces positive development for adolescents because it provides guidance for the students. According to Holt, et al (2012) stated that, with supervised ECA, students are guided towards appropriate behavior and activities while being challenged to help develop competence and confidence, stipulated in the regulations that are made by the Minister of Education and Culture of the Republic of Indonesia number 62 of (2014)concerning extracurricular activity from elementary until senior high school. There are many activities in extracurricular may include pro-social activities such as dances, team sports, and performing arts, while in school involvement activities may include intramurals, and academicsclub.

Based on the description above, the researcher concludes that extracurricular is the activities outside of school hours and doesn't credit the academic scores, to enrich and broaden the knowledge and abilities that students already have from various fields of interest, to improve their confidence and knowledge out of the class.

The purpose is to keep strategy execution on track as plan, making sure that results are being delivered. The extracurricular in English club as a place where member of a club can learn, exercise, and practice English freely with various materials without shame, apprehension and nervousness. There are many expert measuresthat can describe level of achievement according to what has beendesigned indicators function indicate the achievement of the desired thing. Indicators become reference in achieving the target.

In addition, Ewens (2014) stated that there are some principles of successful of English club to achieve A good English club should be participant center. Some strategies to achieve such are Encourage participant to bring in their own content, ask participants question about their lives, divide participants into small groups to discuss question or to do activities, give participants opportunities to express themselves creativity in English, for example, through drama, poetry or storytelling. Alternatively, give them opportunities to explore visual communication, for example art or dance, with a post-performance discussion in English

Secondly, A good English club plays and important social role. An English club can be a chance to meet new people and make new friends (both for both moderators and participants). Next, a good English club empowers individuals. Freedom from study purposes, exams, and syllabus will usually be appreciated by students. Teachers also usually appreciate things like this. A decent English club, allowing its members to learn freely for examples, plan a trip to attractions nearby or invite locals to talk to the club participants.

A good English club is fun. Fun and enjoyment are allusive qualities. They happen when people are not looking for them. With regard to English clubs, it is almost impossible to predict in advance whether the activities planned will click or not. Like a good teacher, an English club moderator should be flexible and intuitive, abandoning activities that fall flat, and embracing the spontaneous and unplanned.

Furthermore, stated by Usman (2021), There are two definitions of implementation. First, implementation leads to activities, actions, or the existence of a systematic mechanism; implementation is more than just an activity; it is an activity that is planned and designed to achieve the activity's goals. In other hand, ehrens (2015), implementation is the execution or application of any plan, method or design, idea, model, specification, standard, or policy for accomplishing something. Thus, implementation is an action that must occur after the initial thought in order for something to occur.

Participate extracurricular activities has positive and negative side.

Students who participate in extracurricular activities experience higher

levels of academic achievement. Fredrick (2011) stated that, students who

participate frequently in extracurricular activities tend to higher grades,

better test scores, and more positive educational experiences in general.

There are many advantages for joining extracurricular Englishclub as

follows;

a. Advantages of extracurricular in English club

According to Dierking (2017) stated that, the advantages of English club are English club are less formal than a classroom setting, learners find them more fun than usual, learners can also practice andlearn on their own.

Furthermore, Malu and Smedley (2016) stated that the advantages of English club are communicating and practicing, English club activities may incorporate reading, writing, listening, speaking and critical thinking, the focus is on oral language skills- speaking and listening to English. In addition, Galanes and Adams (2013) stated that, the advantages of English club are the students get passion to not reticence, the purpose of the explanation above is the motivation of students to know something. knowledge, it means that learning in English club cancertainly improve vocabulary and it good for their academic achievement in class.

Based on the opinion above, it can be concluding that extracurricular in English club one of the method for the students and help to develop their English learning and achievement and becausethe English club more fun help students learn easily.

Disadvantages of extracurricular in English club

The disadvantages of extracurricular in English club is they will waste money and time learning English outside the classroom if their teacher is not competent enough to speakEnglish. Students must allocate extra time to study English. In addition, Ibrahimzel (2008) stated that first, clubs will make us hard to have a good management. We lost focus for the revision and the prioritize on those club too much. Second, will affect to our study sometime it can lose our concern to study when we only keep focus in one thing. Third, do nothave to be with their family. As we know, that most of student studyfrom Monday to Saturday, so they have only one day to stay with their family. If they join the clubs in Sunday, so how can they have enoughtime with family. And this also can make gap between them and theirfamily.

Based on the opinion above, the researcher conclude that clubs are good for us but they also have advantages and disadvantages. The benefits of joining an English club can affect ourselves in the long term, even in the future, and of course there are many benefits that we will get

from it in future. But one of the short-term disadvantages is, we'll focus on one thing, the English club.

Non-Formal Education

Nowadays the need of English club as one of extracurricular education is being improved. It caused by the big willingness of society toward language mastery. The awareness of the important of learning English as a means of world communication gives many chances for nonformal education, UU Sisdiknas No. 20 tahun 2003 pasal 26 states that non-formal education is held for the society who need educational service, which has function as substitution, addition and or complement of formal education in supporting lifelong education.

A Bame and Therese (2011) explain that non-formal education involves all educational activities organized outside the formal system and designed to serve identifiable and educational objectives. Coombs and Ahmed (1974, p. 8) in Rogers (2004) define non-formal education as any organized, systematic, educational activity carried on outside the framework of the formal system to provide selected types of learning to particular subgroups in the population, adults as well as children. Based on those definitions, non-formal education is set up to fulfill the lack education in formal education. In short, non-formal education can be defined as an alternative education, which supplements the formal education.

CHAPTER III METHOD OF THE RESEARCH

AaThe Research Design

In answering the research questions, the researcher used qualitative research as the approach because it is in line with the purpose of the study which to explore the implementation of english club as an extracurricular activity. As stated by Creswell (2012), qualitative research is to explore the phenomenon of the problems from the perspective of different education students. In other hand Ary, et al (2010) a research with qualitative approach has goal to investigate the quality of people, things, situations, and materials. With a qualitative approach, a realistic view of what has been experienced by the informant, where this cannot be measured numerically.

Furthermore, this research used descriptive research as a design because it is in line to definition of Descriptive research, is a research method based on the philosophy of post positivism which is usually used for research in natural objective conditions where the researcher acts as a care taker. Williams (2007) asserts that descriptive research is a design of inquiry that can establish and determine the context of a current phenomenon. The researcher aims describe The results in descriptive research is to identify and categorize the phenomenon. A. The Time and Location of the Research

The researcher conducted from May until August 2023. It was conducted at SMA Negeri 8 Pekanbaru. It is located at Jl Muis Number 14, Cinta Raja, Kec-Sail, Kota Pekanbaru. The researcher selected this place because the writer had been observed the school in 2022 and the writer interest with the school because the school is one of favorite school in Pekanbaru.

Barthe Subject and Object of the Research

The subjects of the research were members of English club at SMA Negeri 8 Pekanbaru. While the object of this research is the implementation of English club as an extracurricular activity.

C. Participant of The Research

As stated by Moleong (2004), participants were people who are used to provide information about the situation and conditions of research. To select informants of the research, the researcher used purposive sampling. As finentioned Ary, et al (2010) stated that, purposive sampling is a sampling technique based on data sources certain considerations related to the study and the purpose by the researcher. Since the researcher selected the informants who are appropriate and suitable to receive information, therefore it reduces bias during research. Therefore, there are five peopleas main informants who will be interviewed in order to gain information from them.

Z D₄Technique of Collecting Data

In this research, the researcher used one instrument in collecting the data, mamely interview. The interview was a semi-structured interview, so the question can be developed based on the participants responses. Interviewing involves asking question and getting answered from participant in a study. The variety forms include, individual, face to face interview. The researcher used open ended question, which the answer cannot be answered in yes or no only.

It supported by Ary, et al (2010) states that interviews may provide information that cannot be obtained through observation, or they can be used to verify observations. Ary, et al (2010) stated that, semi structured interview which the area of interest is chosen and question are formulated, but the interviewer may modify the form or questions during the interview process, and the questions are typically open ended (cannot be answered with yes or now simple response) and are designed to reveal what is important to understand about the phenomenon under study.

Participant interviewed for about 10-15 minutes. The researcher only interviewed 3 students and 1 supervisor. The interview was one-on-one materials, which means the researcher asked question to and recorded the statement of th

Administered question of interview to the participant in this research, the researcher took The Principles of Successful English Club (TPOSE) by wens (2014), to measure the implementation of english club as an extracurricular activity. This question was modified by the researcher and the researcher preferred to use TPOSE as research instrument because the researcher is more specific about research on english club implementation.

To minimize misunderstanding, the interview conducted in Bahasa Indonesia. The researcher asked question to each participant then dig information from them. Conversation during interview using a voice record. Afterwards, the researcher made a transcript of the interview for each participant.

E. Technique of Data Analysis

Data analysis involves systematizing of the data that has been compiled to make it more readable and easy to present a conclusion. Ary, et al (2010), data analysis is the process of working with the data, organizing it, dividing it manageable units, synthesizing it, looking for patterns, determining what significant and what needs to be learned. In this research, the researcher analyzes the data from interview.

Analyzing qualitative data is messy and nonlinear. In qualitative messearch, data collection and analysis are frequently completed concurrently. A most of data are used in qualitative data analysis. As a result, the researcher most determined an effective analysis strategy. As refer to Ary, et al (2010), there

The four concise phases for analyzing qualitative data, with the following sections Familiarizing and Organizing, For the first stepof data analysis phase, which researcher will attempt to reread and reviewed every data in order to increase comprehension. The data which got fromdrafts' interview videotape and notes. After that, the researcher grasps and ensure related information under study, so the researcher will organizethe data in written list. This phase on order to make an easier analysis with alldata gathered.

Secondly, Coding and Reducing. The second step is identification of categories and themes and their refinement. Ary, et al (2010) In this instance, the 1researcher code or label the data in accordance with specific standards. It aims to separate specific information that the researcher needs. In addition, it highlights the significant data that will relate to the research.

In this step, the researcher also applied data reduction. It is the repeatedly occurring process of reducing the data, which entails summarizing, selecting the most important information, concentrating on it, and determining the topic and form Moleong (2004). Thus, the irrelevant and unnecessary data reduced and vice versa.

Third, Interpreting and Presenting. The third step in data analyzing process interpreted all data from the study to answer the research questionin the form of descriptive analysis. Descriptive data analysis contained the result of the study, researcher's background knowledge, and also relevant theories. The last step, Drawing Conclusion. The researcher merges all ideasand results of the study into the final conclusion in the form of descriptive analysis.

F. Triangulations

CIP Research triangulations basically aims at validating the results of study. As mentioned by Sugiyono (2016), source triangulation is used to test the credibility of the data by checking the data that has been obtained through several sources. The data that has been analyzed by researchers produces a Gesult conclusion, then an agreement (member check) is requested with the source data. Triangulations The validity of the data is needed to obtain a level If reliance related to how far the truth of the researchresults is. According to creswell (2012), triangulations method is use of number of data collection methods in a study. This research used interview to obtained the data. Based on the research conclusion above, the researcher proposed some suggestions as follow:

For the supervisor, it is suggested to the english club, especially in the speaking activities to build a comfortable atmosphere and encourage the students to speak English. The teacher also needs to apply activities which make the students confident to speak English. In the speaking activities teacher should properly give the students model of language as the input, which was in the spoken form. After presenting the model of language teacher should also provide adequate practices before going to the production stage. Researcher	:	Bagaimana strategi klub bahasa inggris di SMAN 8
Z	<u> </u>	Pekanbaru untuk menciptakan participant centered?
Sudent 1 Suska Riau	:	Pada dasarnya selain memberikan informasi secara tiba-tiba sebagian besar hal yang dilakukan di cibis dilakukan oleh kita jadi baik itu menghubungi pelatih, membuat proposal atau membuat jadwal latihan, itu semua dibuat oleh kita ya peserta selain itu ketika kita membuat kebijakan baru kita cobalah yang terbaik untuk tidak langsung menerapkan kebijakan-kebijakan tersebut. Kita akan melakukan uji coba. Lihat, seperti, mari kita lihat kita menerapkan sistem di sini. Bagaimana reaksi para anggota dan bagaimana mereka
		bereaksi terhadap sistem tersebut sehingga pada akhirnya
	1	saya merasa seperti di cibi kami. peserta, entah itu orang yang
		punya kekuasaan atau ora <mark>ng yang sekedar</mark> anggota cibi, saya
		rasa semua orang cukup punya cukup suara atau cukup
		kekuasaan di cibi karena sejujurnya mentor kami tidak terlalu
		melakukan itu, jadi pada akhirnya saat ini kita menjadi
		mandiri bukan hanya karena kita ingin. karena kita benar-
Dro. 1		benar harus melakukannya
Researcher	:	jadi ya, mengambil kendali di klub Inggris sungguh tidak cibi ya kamu membuat peraturan sendiri
Student 1	:	saya dan yang lain kita buat desainnya lalu kita beritahukan
slan		pada guru lalu guru akan memberikan masukannya lalu kita
am		proses lagi dan nanti akan menjadi sesuatu
Researcher	:	and cibi, always you don't have the policies that you met say
<u>G</u>		yes or no how about that dan cibi, selalu saja kamu tidak
Univ		punya kebijakan yang kamu temui mengatakan ya atau tidak
e		bagaimana dengan itu
Student 1	:	Entahlah kadang-kadang mungkin karena COVID ada
ity of		anggota yang tidak aktif lho, seperti yang dikatakan kami
of		punya, kami punya banyak peminat dan beberapa biasanya mereka akan diwawancara apakah mereka bisa diterima atau
Su		tidak, tetapi karena sedikit orang yang benar-benar aktif
LH:		memutuskan untuk menerima saja semuanya dan menurut
n		saya itu karena sistemnya 50-50 karena orang-orang yang
Sy		aktif mengikutinya tetapi mereka bisa memodifikasinya
ar		sendiri karena sebenarnya tidak begitu ketat

Researcher tapi sebenarnya dalam bahasa Inggris juga ada pilihannya Student 1 dulu sih tapi kayaknya aku berencana terima saja semuanya kalau aktif, aktif, kalau tidak menurutku sebenarnya kalau C 5 aktif, sudah oke Researcher what strategy that implement that English club used at SMAN 8 Strategi apa yang diterapkan klub bahasa Inggris tersebut di Student 1 jujur saja gen sebelumnya hanya satu divisi yang benar-benar Researcher Divisi apa? Student 1 debat hanya debat ya, hanya debat dan bahkan itu seperti hampir hanya beberapa orang yang benar-benar dalam bahasa uska itu tidak begitu seperti ah, jujur saja generasi sebelumnya seperti benar-benar interaktif hanya beberapa orang yang Z benar-benar aktif hanya satu divisi sebenarnya aktif jadi saat a ini di gen saya kami mencoba untuk benar-benar menghidupkannya jadi untuk sistem core-on-core yang sudah ada saat ini ada banyak hal karena tidak ada sistem yang kami warisi dari yang sebelumnya dan seolah-olah itu seperti di divisi debat tapi kami tidak ingin hanya divisi debat saja yang berfungsi namun, kami punya beberapa rencana misalnya, kami melihat ada kecenderungan bahwa beberapa orang yang bergabung dengan GB belum mahir dalam hal itu. Bahasa inggris entah itu speaking, reading apapun dan sejenisnya saya paham ada yang berasal dari kata saya, dan ada juga yang bukan berasal dari sekolah favorit jadi bisa dimaklumi tidak semuanya mahir berbahasa inggris jadi kami' berencana kalau kita punya dana yang cukup entah itu dari kita entah State Islamic University of Sul dari lho, relawan apapun rencana kita untuk membeli board games board game seperti, Scrabble siapa itu? eh, kami akan pergi ini pada dasarnya adalah permainan mata-mata tapi itu agak mahal jadi Scrabble adalah prioritas utama kami dan juga pekerjaan rumah wajib yang terdiri dari teka-teki / tekateki silang dan itu akan menjadi sesuatu yang akan diterapkan pada semua divisi baik itu tulisan atau pidato Bade karena menurut saya penting bagi kita untuk terlebih dahulu mengetahui seberapa jauh kemajuan mereka terutama dalam kosakata mereka karena kosakata sangat penting baik itu menulis, pidato atau debat itulah sebabnya kami percaya bahwa setidaknya mengajarkan hal-hal dasar seperti kosakata dengan Scrabble atau teka-teki silang sangat penting dalam sistem kita saat ini Researcher jadi apa hubungan perdebatan dan strategimu seperti papan permainan, Scrabble Syarif Kasim Riau

Dilarang mengutip sebagian atau seluruh karya tulis ini tanpa mencantumkan dan menyebutkan sumber: a. Pengutipan hanya untuk kepentingan pendidikan, penelitian, penulisan karya ilmiah, penyusunan laporan, penulisan kritik atau tinjauan suatu masalah

Student 1 Hal yang menjadi perdebatan adalah banyaknya jargon, banyak kata rumit seperti dramatis seperti diskriminasi rasial bla bla bla itu kosakata yang sangat-sangat sulit dan cipta sepertinya saya tidak bisa berharap mereka mengetahui semua kosakata itu tanpa terlebih dahulu mengajari mereka kosakata yang lebih dasar tetapi ini jika mereka belum milik UIN mengetahuinya selain itu saya dapat perlahan tapi pasti memasukkan kata-kata itu karena Anda tahu di teka-teki silang akan ada semacam deskripsi tentang kata tersebut jadi jika mereka sudah mengetahui deskripsinya dan kemudian mereka tahu vocabnya jadi katakanlah sesuatu yaitu Suska katakanlah kata itu sistematis lalu di pertanyaannya mereka bertanya mereka memberikan gambaran tentang apa itu sistematika dan mereka menjawab dan ya ya hubungannya dengan perdebatan ya pada dasarnya agar Z a memperkaya vocabnya agar ada vocab yang lebih kecil itu salah satu hal yang penting ya pertanyaan ketiga bagaimana jadwal klub bahasa inggris di Researcher SMAN 8 Run? Kami sedang membuat jadwal ini sekarang, jadi kami Student 1 berencana menjadikannya pertemuan wajib setiap hari Sabtu, kami berencana mengadakannya secara online, mungkin sekali atau dua kali sebulan kami akan mengadakan pertemuan offline untuk berlatih perdebatan menulis pidato tanpa telepon murni daring jadi teksnya kalau kepikiran jadwal dikabulkan karena di Researcher SMAN 8 tidak ada jadwal tetap. Sani kamu ambil kelas berapa? Student 1 10. Insyallah minggu depan sudah dimulai. Researcher Oke klub bahasa inggris berikutnya. Bagaimana hubungan antara Anda dan supervisor? Student 1 Menurutku, dia bagus, Meskipun dia agak pasif, dia sangat depandent. Dia sangat setuju dengan segalanya Pertanyaan selanjutnya anggota klub bahasa inggris harusnya Researcher diberi kebebasan untuk mempelajari tujuannya kan? Jadi nivers bagaimana perasaan Anda setelah bergabung dengan klub bahasa Inggris? apakah itu sepenuhnya harapanmu atau tidak? Student 1 Saya pikir saya benar-benar mencintai dan saya tidak pernah of Sultan Syari menyesalinya, mari kita bicara tentang kebijaksanaan sosial dulu, kebijaksanaan sosial telah menghubungkan saya dengan banyak orang-orang hebat. Orang-orang yang belum pernah kutemui, ini juga memberiku kesempatan untuk mengenal, mengenal orang-orang di seluruh Indonesia, ngobrol dengan mereka, ngobrol dengan teman-temannya. Itu bahkan membuatku, tidak terlalu pintar, tapi aku mendapat pekerjaan Kasim Riau

Hak cipta milik ∪IN Researcher	:	sebagai juri di kompetisi dan menonton anak-anak kecil berdebat satu sama lain ya Tuhan, itu sangat lucu dan dari segi keterampilan, tentu saja, itu sangat meningkatkan keterampilan saya karena saya aktivis dalam debat dan mulut Anda harus seperti motor rap seperti bla bla bla jadi ya dari segi keterampilan ini meningkatkan keterampilan saya secara sosial dan juga meningkatkan keterampilan sosial saya, keterampilan berbicara di depan umum, dan terhubung dengan banyak orang lain yang belum pernah saya hubungkan sebelumnya Oke, selanjutnya, apa saja masalah yang umum ditemukan di
SUS		klub-klub Inggris? Ya Tuhan, pertama dari banyak masalah, menurutku
Student 1	:	fpertama-tama, karena aku berada dalam posisi yang memiliki hak otoritas, jadi tentu saja kata-kataku sangat membantu di dalam kelompok, namun, aku masih seorang pelajar jika temanmu, bahkan jika mereka adalah seniormu, menyuruhmu melakukan sesuatu yang mungkin masih kamu lakukan. itu tapi tahukah kamu, beda dengan efeknya jika guru yang menyuruhmu, kamu tahu seperti jika kamu berteriak di kelasmu untuk pergi dan membersihkan kelas kemungkinan besar temanmu akan suka ya terserah tapi jika guru bilang begitu teman-temanmu akan berebut untuk mengerjakan pekerjaan itu dan itu yang aku rasakan di cibi karena mam risna pasif sekali kadang aku kena hantu
Researcher	:	Ssenioritas begitu ?
Student 1 State Is	:	tidak tidak tidak tidak senioritas saya bukan suporter atau senioritas hanya saja ya tuhan setiap saya menanyakan pertanyaan apa saja di cibi like gimana ya? tidak ada yang menjawab oh oke kawan, kami di sini hampir tidak ada masalah.
Researcher	:	Jadi bukan mam risna saja yang sedikit pasif namun member yang lain juga begitu?
Student 1	:	Yeah.
Researcher	:	oke bagus. bagaimana cara supervisor mengatasi masalah yang ada di klub bahasa inggris selama ini? bagaimana menurutmu? Tentang keuangan? lebih seperti uang, uang untuk klub Inggris?
Student 1 of Sultan S Researcher	:	Kalau soal keuangan dia berusaha semaksimal mungkin, tidak, tidak, itu bukan uang tunai, ya, seperti misalnya kompetisi atau lho, pelatih ah, okelah seperti, aku tidak tahu kenapa sekolahnya sekolah banget, sangat benci. Sulit untuk meminta dana dari sekolah dari aku sebelas sampai sekarang. Hanya dalam keuangan mama Risna melakukan yang terbaik Klub bahasa Inggris seharusnya menyenangkan dan apa yang

Ha ada beberapa kelemahan dan menurut anda klub bahasa inggris di sman 8 harus diperbaiki tidak ada kelemahan yang ~ CIP harus diperbaiki apa yang anda rasakan setelah bergabung dengan bahasa inggris? Student 1 kelemahan di klub inggris, menurutku kelemahan yang kita punya adalah semoga dosen pembimbing kita lebih aktif 3 dalam mengelola cibi secara langsung karena stres ya, Researcher ya, satu-satunya masalah terbesar adalah cibi itu ingatannya ingatannya adalah ingatannya dia guru yang baik, ya Student 1 ya hanya pasif seperti itu selain itu, menurutku chibi itu asyik apalagi di divisi debat karena hanya itu yang aktif Researcher okay, I see. Thanks a lot Student 1 You're welcome.

Researcher Z S S S S A R	Edlu bagaimana menurut strategi Fadil, Klub Bahasa Inggris sama saja dengan menciptakan Participant center atau menjadikan siswa sebagai pusatnya. Bukan Klub Bahasa Inggris yang menjadi pusatnya, namun para siswa yang menjadi pusatnya menyukai kebebasan dalam mempelajari sesuatu. Bagaimana menurutmu? di SMAN 8 Pekanbaru.
Student 2	: Oh, jadi keaktifan anggota itu sendiri bukan keaktifan klub?
Researcher	: Aha, Partisipant Centered.
Student 2	: Okey mungkin itu persepsiku ya. setiap anggota memiliki kepribadian yang lebih berbeda. Mereka sangat menyukai kebebasan dalam berpendapat. Mereka tidak takut dengan pendapat mereka. Biasanya mereka seperti kami terlihat lebih asyik karena membahas apa saja dan beberapa jenis topik bahkan setiap topik. Meski berbeda pendapat namun tetap sportif. Kami tahu bagaimana beradaptasi.
Researcher	: Kamu merasa klub kamu asik ya?
Student 2	: Ya seperti itulah
Researcher	: Bagaimana strategi pembelajaran di SMAN 8 milikmu dari klub ini? Apakah dari silabus atau bagaimana?
Student 2 mic Uni	: Oke pada dasarnya, di klub bahasa inggris kita mengikuti aturan sistem yang unik. Kami sebenarnya belajar sesuatu dari pengalaman guru & buku. Ada kalanya kita menggunakan pedoman literasi namun setelah itu kita tidak menggunakannya lagi.
Researcher	: Lalu pernahkah Anda mendengar bahwa ada kompetisi belajar yang baru saja berjalan? Apakah itu benar?
Student 2	ya, tepatnya seperti, ketika kita tahu akan ada kompetisi yang akan diadakan sekitar dua hari atau tiga hari disitulah kita mulai berlatih oke disitulah kita mulai berlatih
Researcher Student 2	: okey hubungkan dengan jawabanmu jadi bagaimana perasaanmu tentang jadwal klub Inggris, jadwal rutin di semandle?

		teratur sama sekali seperti, kita jadi seperti oh, fleksibel,
<u>a</u>		ya suka, sebenarnya kita tidak suka Tentu saja, hari apa
C		itu berlatih? Kami seperti, kapan latihannya dimulai hari
ak cip		ini, tidak apa-apa, jadi kami seperti saling mengganggu
Researcher	:	sehingga salah satu kelemahannya adalah tidak
	•	mempunyai jadwal yang teratur
Student 2		Hmm bisa dibilang itu kelemahan tapi sebenarnya bisa
	•	dibilang itu hal yang baik karena, Apa yang harus
2		dilakukan? Klub Inggris itu sejumlah anggota klub
		Inggris, bukan? apakah banyak anggota klub inggris yang
Z		memiliki satu pasang atau tidak? oh karena biasanya
S		kalian tidak berpikir begitu. Misalnya kita menjadwalkan
ik UIN Suska		
<u>~</u>		jadwal, kadang anak-anak atau member kadang suka menunda-nunda, seperti ini ya? Nah kalau jadwalnya kan
		hari Kamis ya kita latihan aja, misal gitu-gitu saja, tapi
20		
Riau		misal kita klub Inggris, entah apa yang tidak ingin kita
- -		ceritakan di kompetisi atau apa. kita gak mau bilang kalau
		menurut dia nah, karena kita punya keputusan seperti itu
		seperti latihan hari ini kita bisa siap seperti tidak apa-apa
	A	kalau kamu memilih Saya siap seperti itu, itu saja, jadi itu
D 1		saja, sudah didirikan
Researcher	:	Lalu bagaimana perasa <mark>an Anda setelah</mark> bergabung dengan
		Klub Bahasa Inggris? Anda merasa kemampuan Anda
g. 1 2		meningkat di Klub Bahasa Inggris atau tidak?
Student 2	:	Oh ya, kalau bicara spesifikasi kecil, mungkin bedanya
		sebelum dan sesudah saya bergabung di English Club.
		Saya sebenarnya tahu banyak hal tentang budaya barat.
S		Dan perbedaan antara budaya barat dan budaya Indonesia
State Is		sungguh berbeda. Tapi dari sana, saya sebenarnya bisa
e		belajar bahwa setiap orang berbeda. Kita tidak bisa
Lance of the Control		memperlakukan orang dengan cara yang sama seperti kita
ar		memperlakukan orang tersebut dan kita tidak bisa
n.		melakukan hal yang sama. Oke, jadi bagi saya adalah
CC		keterampilan sosial. Keterampilan sosial saya semakin
Jn		meningkat ketika saya bergabung dengan Klub Bahasa
iv		Inggris karena adanya anggota. Peningkatan
ers		keterampilan. Ada perbedaan sebelum dan sesudahnya.
it		Saya belajar bagaimana suka berdebat. Saya sebenarnya
y		berbicara dalam debat. Tapi intinya di debat bahasa
of		indonesia, karena bahasa inggris saya kurang bagus. Ada
Su		lebih dari sekedar kebaikan dari saya, anggota kami
ılt.		sepertinya lebih baik dalam bahasa Inggris, lebih dari
an		saya. Seperti ada salah satu temanku. Dan di Klub Bahasa
S		Inggris, dan dia adalah penutur bahasa Inggris alami. Dia
lamic University of Sultan Syarif		wajar karena dia sebenarnya tinggal di Amerika selama
Ξ.		tiga tahun. Tapi sebenarnya saya juga belajar darinya.

Researcher	:	Apa masalah umumnya? Ditemukan di Klub Bahasa
a		Inggris Smandle.
Student 2	:	Oh, masalah umum. Sebenarnya, saya dapat mengatakan
p		bahwa ini adalah masalah yang umum terjadi di klub lain
ā		juga. Ini sebenarnya seperti kerja tim. Kadang kala, oh

Anda pikirkan? Bagaimana yang menyelesaikan masalah pada anggota yang telah disimpan di klub Anda?

Ya, oke, tapi seperti, aku harus bicara tentang cara mengatasi ini. Sebenarnya aku sedang mencoba mencari tahu sekarang. Sebagai anggota klub Inggris dan sebagai pemimpin klub Jepang juga. Karena aku juga punya perjuangan yang sama. Sudah hampir satu tahun aku sudah menjadi pemimpin klub Jepang Tapi aku masih berusaha keras untuk membuat anggota aktif Tapi mungkin kadang-kadang jika kita berbicara tentang anggota baru, bagaimana membuat mereka lebih aktif Aku tidak tahu. Rasanya, aku sebagai kakak kelas atau senior Harus seperti, benar-benar bukan orang yang peduli di sekitar mereka. Awalnya, aku harus membuat kesan pertama pada mereka seperti kakak kelas yang tegas. Jadi mereka tahu itu, aku bergabung dengan organisasi ini atau Saya mengikuti ekstrakurikuler Jadi saya tahu saya mempunyai konsekuensinya Saya pikir begitulah cara saya menyelesaikannya Tapi saya belum melihat hasilnya. Kalau saya memang berani mengkritik. Jika anggota baru memang berniat mengikuti kegiatan ekstrakurikuler ini pasti aktif. Tapi masalahnya karena covid. Mungkin baik-

Jadi, saya bergabung dengan klub Jib English ini untuk mencari tempat yang paling cocok untuk saya, bukan? Karena saya berbicara bahasa Inggris dan saya suka berbicara secara umum, bukan? Tapi saya tidak pernah punya kesempatan untuk melakukannya. Jadi, setelah bergabung dengan klub, saya belajar berpikir kritis, bukan? Karena divisi pertama saya adalah divisi debat. Saya bertemu banyak orang hebat seperti Kak K, Kak Uchi, yang merupakan rekan setim pertama saya. Jadi, mereka mengajari saya cara berdebat, berpikir kritis, menilai situasi. Researcher : Izin untuk bertanya pada ibu. Seberapa kuat strategi Inggris

untuk menciptakan pusat peserta dan kaya. Siswa seperti apa

yang menerapkan strategi ini?

Supervisor : Kami punya presiden, jadi kami akan mengatur anak-

anaknya. Ada divisi. Kami mempunyai beberapa bagian yang disingkat menjadi 3 yaitu debat, pidato dan tulisan. Jadi presiden yang mengurus pelatihannya, kami hanya

menyampaikan dan memfasilitasi saja.

Researcher : Jadi misalnya bagaimana cara meningkatkan pembelajaran

dari presiden atau punya pelatih sendiri ya, Bu?

Supervisor : ada trainernya, kita juga ada untuk debat tapi ibarat kakak

dan adik saling membantu. Terkadang kita hanya

memfasilitasi dan hanya menonton saja.

Researcher : ibu kedua. Strategi atau sistem seperti apa yang ingin ibu

bunda?

Supervisor : Jadi misalnya untuk lomba besok, kita persiapkan dari awal

untuk melatih kita berlatih lebih intensif untuk lomba hari

itu. Jadi itu normal.

Jika klub Inggris memiliki peran sosial yang penting dan memiliki kekuatan sosial, lalu bagaimana pendapat Anda

tentang hubungan Ibu dan anak?

Tidak apa-apa, sebelumnya Kezia sering berkomunikasi, namun sekarang dia sudah tidak hidup karena belum memulainya. Ini baru akan dimulai pada hari Sabtu

keesokan harinya.

Jadi, apakah Inggris punya kebebasan mempelajari tujuan Anda, bukan? Menurut ibu apakah ada dampak sebelum

anak masuk klub inggris?

anak-anaklah yang benar-benar tertarik. Kalau mau lebih pasti ada tesnya kan? Lalu apakah kita mempersiapkan anak

berbakat istimewa tadi.

Menurut Bunda, apa saja permasalahan umum yang sering

ditemui di klub Inggris, Bu?.

Terkadang masalah persaingan adalah soal pendanaan. Apalagi jika keluar kota seperti pergi ke Jogja ke Surabaya mungkin bisa dilakukan oleh para orang tua, namun tidak semua orang tua menganggap hal tersebut merupakan hal

yang baik bukan?

Artinya ada yang tertutup ya, Ma. Menurut ibu apakah ada Researcher

solusinya untuk pengawas. Bagaimana jika masalahnya

kecuali dari tiket ke dana anak atau semacamnya?

Supervisor Saya pikir mungkin, bagaimana anak yang menang lomba bisa menyisihkan sedikit untuk kelas Cibi. Lalu mungkin

mungkin tidak Untuk pesawat, mungkin untuk apa saja kan?

Researcher Klub bahasa Inggris seharusnya menyenangkan ibu. Namun apakah ada kelemahan yang perlu diperbaiki menurut

bunda?

kalau dari anaknya waktu latihan pasti karena bosan juga ya? Bagaimana rasanya mereka belajar lebih banyak tentang hal

ini sehingga mereka bisa lebih santai dan tidak bisa bersekolah lagi hanya untuk mempelajari ini. Yang

terpenting, semuanya bergantung pada keinginan anak-anak

mereka.

Okey mom thanks mom.

on-core system that is already currently here there's plenty of things because there's no system that we inherit from the previous one and as if it's like in the debate division but we don't want that we don't want only the debate division to work however, we do have some plans for example, we notice a trend that some people who joined the GB is not proficient yet in English whether or not it's the speaking, the reading whatever and like I understand that some of them came from I said, and some of them don't come from favorite school so it's understandable that not all of them are proficient in English so we're planning that if we have the sufficient fund whether it's from us whether it's from you know, volunteer whatever we're planning to buy board games board games like, Scrabble who is it? eh, we're going it's basically a spy game but it's kind of expensive so Scrabble is our most priority and also a mandatory homework which consists of the puzzles / crossword puzzle and it's going to be something that will be implemented on all the division whether it's the Bade writing or speech because I think it's important for us to first got how far ahead they are especially in their vocab because vocab is very important in whether it's writing, speech or debate which is why we believe that at least teaching the basic like the vocab with Scrabble or crossword puzzle is very important in our current system right now

the thing about debate is that there's a lot of jargons there's a lot of complicated words like dramatic like racial discrimination blah blah blah blah those are very, very difficult vocab and like I can't just expect them to know all of those vocab without first teaching them the more basic vocab but these if they don't know it yet beside I can slowly but surely incorporate those words because you know in crossword puzzle there will be like some description about the word so if they already know the description and then they know the vocab so let's say something that is let's say that the word is systematic and then in the question is that they ask they give this description about what a systematic is and they answer and yeah yeah and the relation with debate ya basically in order to enrich their vocab so that they're there's some smaller vocab is one of important things yeah

In your opinion, what are the common problems that are often encountered in the English club, mom?.

Sometimes the competition problem is about funding. Especially if you leave the city like going to Jogia to Surabaya, parents might be able to do it, but not all parents think that this is a good thing, right?

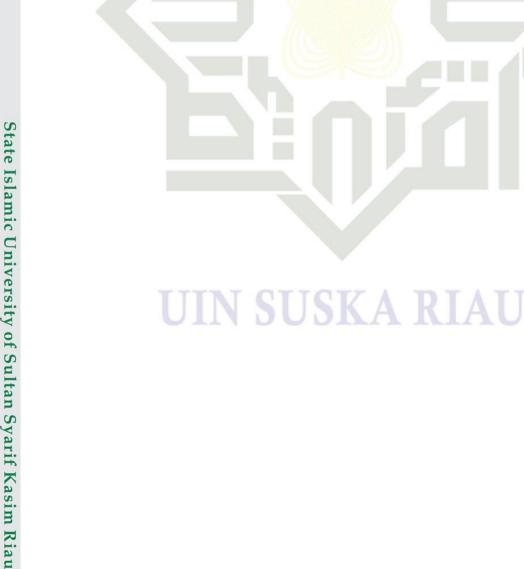

It means that some are covered, mom. According to mom, is there a solution for the supervisor. What if the problem is a problem except from tickets to the children's fund or something?

I think maybe, how can the child who wins the competition set aside a little for the Cibi class. Then maybe maybe not For the plane, maybe it's for anything, right?

English club should be fun mom. But are there any weaknesses that need to be improved, according to mom?

if it's from their children when they're practicing, it's because they're also bored, right? What is it like for them to learn more about this so they can relax a little more and can't go to school anymore just to study this. Most of all it's left to the wishes of their children.

Okey mom thanks mom.
